

children's fun soap

This line of soaps was designed and developed for our younger customers in mind, not excluding our own nephews and nieces.

Kids washing up and "forgetting" to use soap? Let them have their very own. Each of our children's soaps comes with their very own hidden treasure. This soft toy should give your stubborn washer the incentive he or she needs to wash, without worry of harm from hard or sharp plastic.

Our children's soap line is always approved by our own family first! In fact, these soaps have gone through quite a design process to make sure they "fit" into their smaller hands!
