

essential oil soaps

Essential Oils are often very powerful. However, we've discovered if the Essential Oils we use are carefully blended, their individual properties can be greatly enhanced. The "synergy" between the oils becomes much more powerful than the individual oils. We like to refer to these special blends as Synergy Blends.

At The Yellow Belly Frog Company, our Essential Oil Synergy Blends are 100% Natural and Pure. Each of the oils is reputed to have distinct properties that work on specific emotional states. Just keep in mind that our synergy blends are not medicine in the commonly accepted sense, but, if you find yourself drifting off to another place - you can thank us later!
