

packaged gifts

We manufacture a limited number of packaged specialty gifts for those retailers wishing to provide a ready to market gift pack. These gift packs are designed specifically for the retail market using a variety of our soaps.

These products developed from customer feedback and suggestions we have received. We've taken the time in our studio to prepare these ready made gift packs for those that find themselves short on time.

Each gift pack comes designed in a decorative box or tied with raffia braid. They may also include accessories like a wooden soap dish and / or a personal bath glove.

Whenever possible our gift packages maintain a theme and are colour coordinated.
