

# wedding favours

Your customers planning on something special for their guests to take home from their wedding? How about wedding favours that smell great and send a message too!

Our Paisley Heart is quickly becoming a favourite among brides. You can't beat our Candie Hearts if you're looking to put a little fun into your special day.

Fragrances and colours can be customized for larger orders, to coordinate with the party's theme. With a bit of creativity you can design the perfect wedding favour - we provide the soap.
