

welcome to our catalogue

Welcome to The Yellow Belly Frog Company experience. We are a studio based business, dedicated to bringing unique bath & body gifts including specialty items to a variety of retail / wholesale customers like yourself!

Our soap collections are truly a joy to create and sell to your customers. Each bar is unique, as we make them in small hand-stirred batches; cutting and wrapping a label on each bar by hand.

All of the products found in this catalogue are glycerin based. That means luxurious lather that's gentle to sensitive skin. You'll see the difference in the way your skin feels after using our product. You'll be amazed at the joy and fun our special designer pieces bring to the shower, stimulating your senses. Aromatherapy is at work for us.

Yellow Belly Frog soaps do not contain the harsh detergents nor chemicals that commercially mass-manufactured soaps require.

We use ingredients that are safe, mild and moisturizing. In fact, our popular all natural line has no added colouring nor fragrance for those with sensitivities.

All our products are Health Canada Approved so you can sell with confidence knowing our product has been approved before reaching your retail market.

At Yellow Belly Frog we strive to give great care and attention to each individual retail / wholesale customer - like you!

Kim and John Lein
